Mahmoud Hawas
MERN STACK Developer

Summary

Junior MERN Stack Developer skilled in computer programming with MongoDB, Express.js, React, and Node.js. Experienced in building responsive web applications using JavaScript, eager to solve problems and innovate

Work Experience

E-Commerce App

Tech Stack: MERN (MongoDB, Express, React, Node.js), Stripe
March 2025- Apr 2025
- Built a full-featured e-commerce platform with user authentication. Customers can browse, search, and filter products, add items to a shopping cart, and securely pay using Stripe. Logged-in users can view their order history. Admins can manage products, view all orders, and control user roles (promote to admin or restrict access).
- Live Demo / GitHub

Booking App

Tech Stack: MERN (MongoDB, Express, React, Node.js)
Feb 2025- Feb 2025
- Developed a room booking system where users can view available rooms and book using their name and email—no login required. Admins have a secure login panel to manage and confirm bookings.
- Live Demo / GitHub

Full-Stack CRUD System

Tech Stack: Node.js, Express, MongoDB, EJS
Jan 2025- Jan 2025
- Designed and developed a full-stack web application with full CRUD functionality. The system allows users to create, read, update, and delete data entries in a MongoDB database. Utilized Express.js for server-side routing and EJS as the templating engine for rendering dynamic UI. Ensured RESTful API integration and applied MVC architecture for better scalability.
- Live Demo / Github

Educational Background

Self-Taught Web Development

- Mastered MERN Stack (MongoDB, Express.js, React, Node.js) through online platforms YouTube.

Bachelor of Arts - History
Cairo University
Aug 2017- Aug 2021
- Analytical study of historical events, enhancing research and critical thinking skills.

Skills

Technical Skills
- HTML5&CSS3&JS
- ReactJS&NextJS
- TailwindCSS&BootStrap
- NodeJS&Express&MongoDB
- OOP&SOLID principles

Tools/Sofware
- Git& GitHub
- Postman & Terminal & Command Line

Languages
- Arabic (Mother tongue)
- English (intermediate)

Certification/Short Courses
- Udacity Certification for web Developer

Additional Information

- Self-taught web developer with strong focus on full-stack development using the MERN stack.
- Actively working on personal projects and expanding skills in modern JavaScript and backend technologies.
- Eager to transition into a full-time developer role and contribute to real-world applications.
